

Noise Elimination Valve Body Casting Flanged Silent Check Valve For Water Pump System

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Ningbo China
- Brand Name: NC146
- Certification: ISO 9001
- Model Number: 146
- Minimum Order Quantity: 1 pcs
- Packaging Details: According to customers' requirements
- Delivery Time: 25 days
- Payment Terms: T/T, L/C
- Supply Ability: 80,000 pcs per month

Product Specification

- Type: Silent Check Valve
- Material: Cast Iron/Ductile Iron
- Production Process: Casting
- Application: Water Supply Or Water Drainage
- Test: Test 100%
- OEM: Available
- Highlight: valve parts casting, stainless steel sand casting

Product Description

Noise Elimination Valve Body Casting Flanged Silent Check Valve for Water Pump System

Description

Silent Check Valve is mainly assembled by valve body, valve seat, flow guider, valve disc, bearings, and springs, etc. parts. Silent type check valve is widely used in the program system of water supply and drainage, fire service, heating and ventilation, etc.

It can be installed at the place of outlet of water pump to avoid reverse flow or the damage to the pump by the water hammer.

Features

Advanced dynamic design of single body with diffuser provides streamline flow and assures lower head loss.

Minimize the head loss to 0.016Bar upon 2M/ sec flow rate.

Brass or reinforced bearing reduce wearing problem during operation.

Hydrodynamic design ensures non slamming and water hammerless.

Stainless steel spring hidden in the diffuser under protection while valve in operation.

Disc will positively close before reverse flow, and maximize the closing speed up to 0.2 Sec.

Comply with EN 558-1, ISO 5752 and EN 1092-2, ISO 7005-2 flange dimension.

About Us

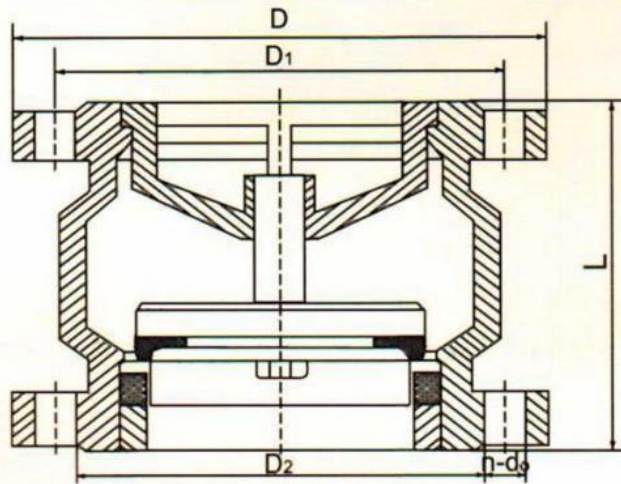

We are a global manufacturer and supplier of valves offering Pipe, Iron valve, Steel valve and Brass valve. Our products are durable, solid and reliable with a competitive price.

We can offer best service along with great quality products to our customers. Products are mainly exported to USA, Brazil, Chile, Germany, Italy, Holland, Britain and Norway.

Please feel free to contact us for further details.

Product Details

Part Material

Parts Name	Material
Valve body and Outlet cap	Gray cast iron HT200, Ductile iron QT400-18, Cast steel WCB
Platen above and below disc	Gray cast iron HT200, Ductile iron QT400-18, Cast steel WCB, Carbon steel Q235-A
Spring	Spring steel, Stainless steel
Sealing Ring	NBR

FAQ

Q: Why are your price competitive?

A: We own factories with group company background. We do as follows:
 First, purchase the casting from competitive and quality reliable casting companies to reduce the material cost.
 Second, produce and assemble the products with modern equipment to reduce the labor cost.
 Third, cooperating with experienced shipping companies to control the freight cost.

Q: How to control the quality?

A: Before purchasing the casting, we ask for some samples to test. Then make sampling survey again when all the castings come. If qualified, we start the production. spray painting, relative managers are responsible for all the progress like material testing, shot blasting, first processing, second processing, assembling, product testing. They should supervise the quality and acknowledge the responsibilities for signature.

Q: How is your packing?

A: our valves are packed in exporting standard, suitable for both ocean shipment and air shipment. Our warehousing and logistics department has standard warehouse. Every product will be fully packaged in professional to avoid rub and damage.

Q: What's your after sales service?

A: The unexpected is hard to avoid. We always try our best to help our clients solve problems. Solution will be sent to you as soon as possible.
